HACK SECURE

Blue Team Internship — Task 3

Security Testing & Detection Evidence

Compiled screenshot appendix

Evidence included: 26 PNG screenshots extracted from the supplied ZIP archive.

Assessment environment: Local DVWA lab, Wireshark, terminal/log review, and Python-based log analysis.

Evidence date shown in filenames: 25 October 2026.

Captions describe the apparent subject of each screenshot and do not independently validate a vulnerability or detection result. Review for sensitive values before public sharing.

Evidence Index

Screenshots are presented in filename order and grouped by apparent subject.

01–02 DVWA Brute-Force Test

03–09 Terminal and Web-Log Evidence

10–10 Plaintext Input / HTTP Parameter Test

11–11 SQL Injection Test

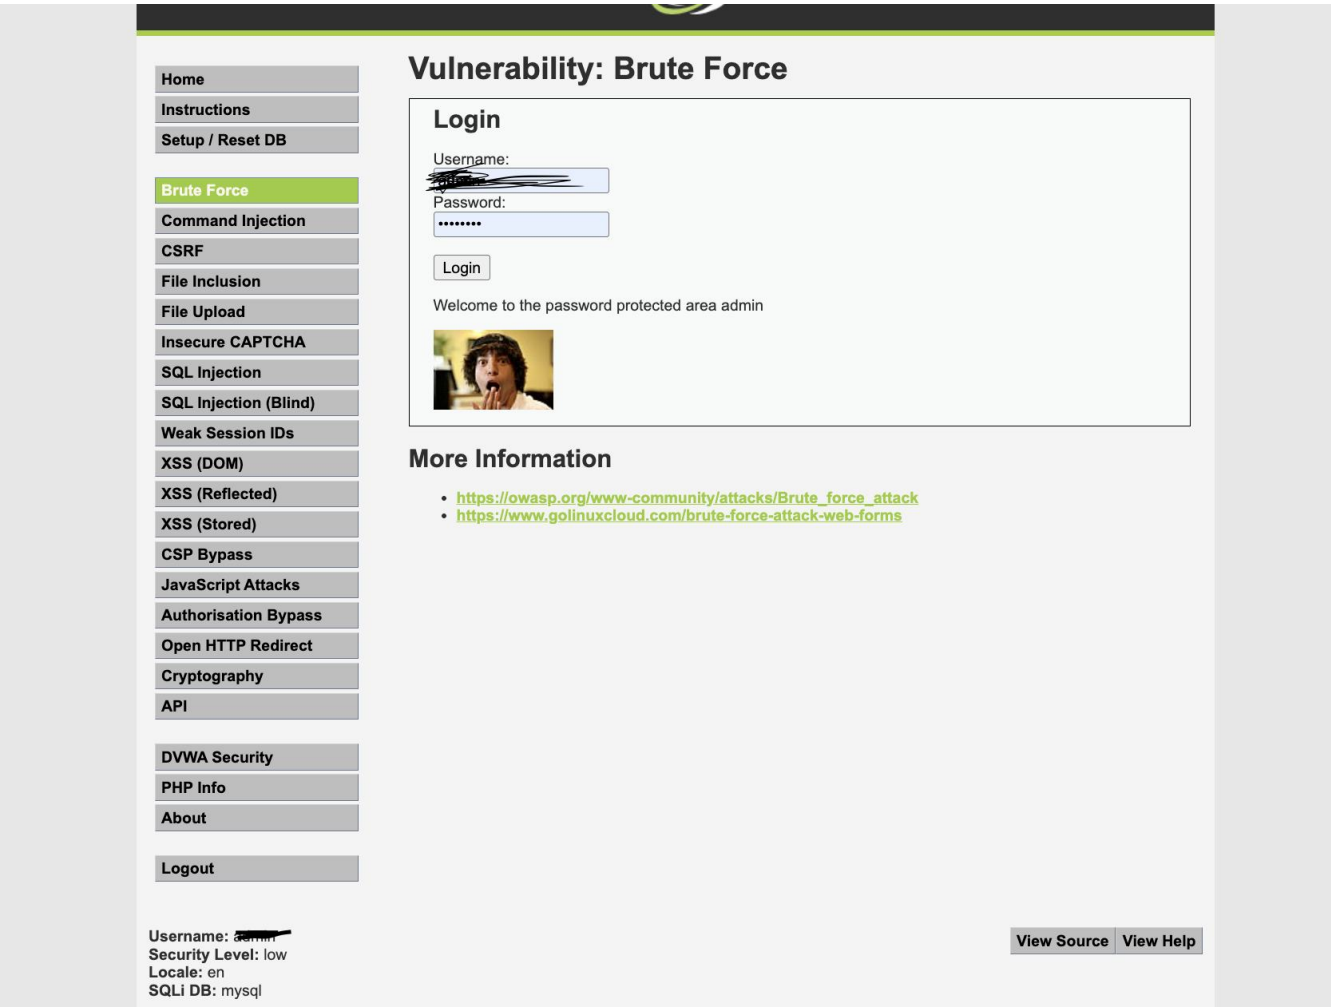

12–12 Reflected XSS Test

13–18 Wireshark Network-Traffic Evidence

19–26 Python Log-Detection Evidence

DVWA Brute-Force Test

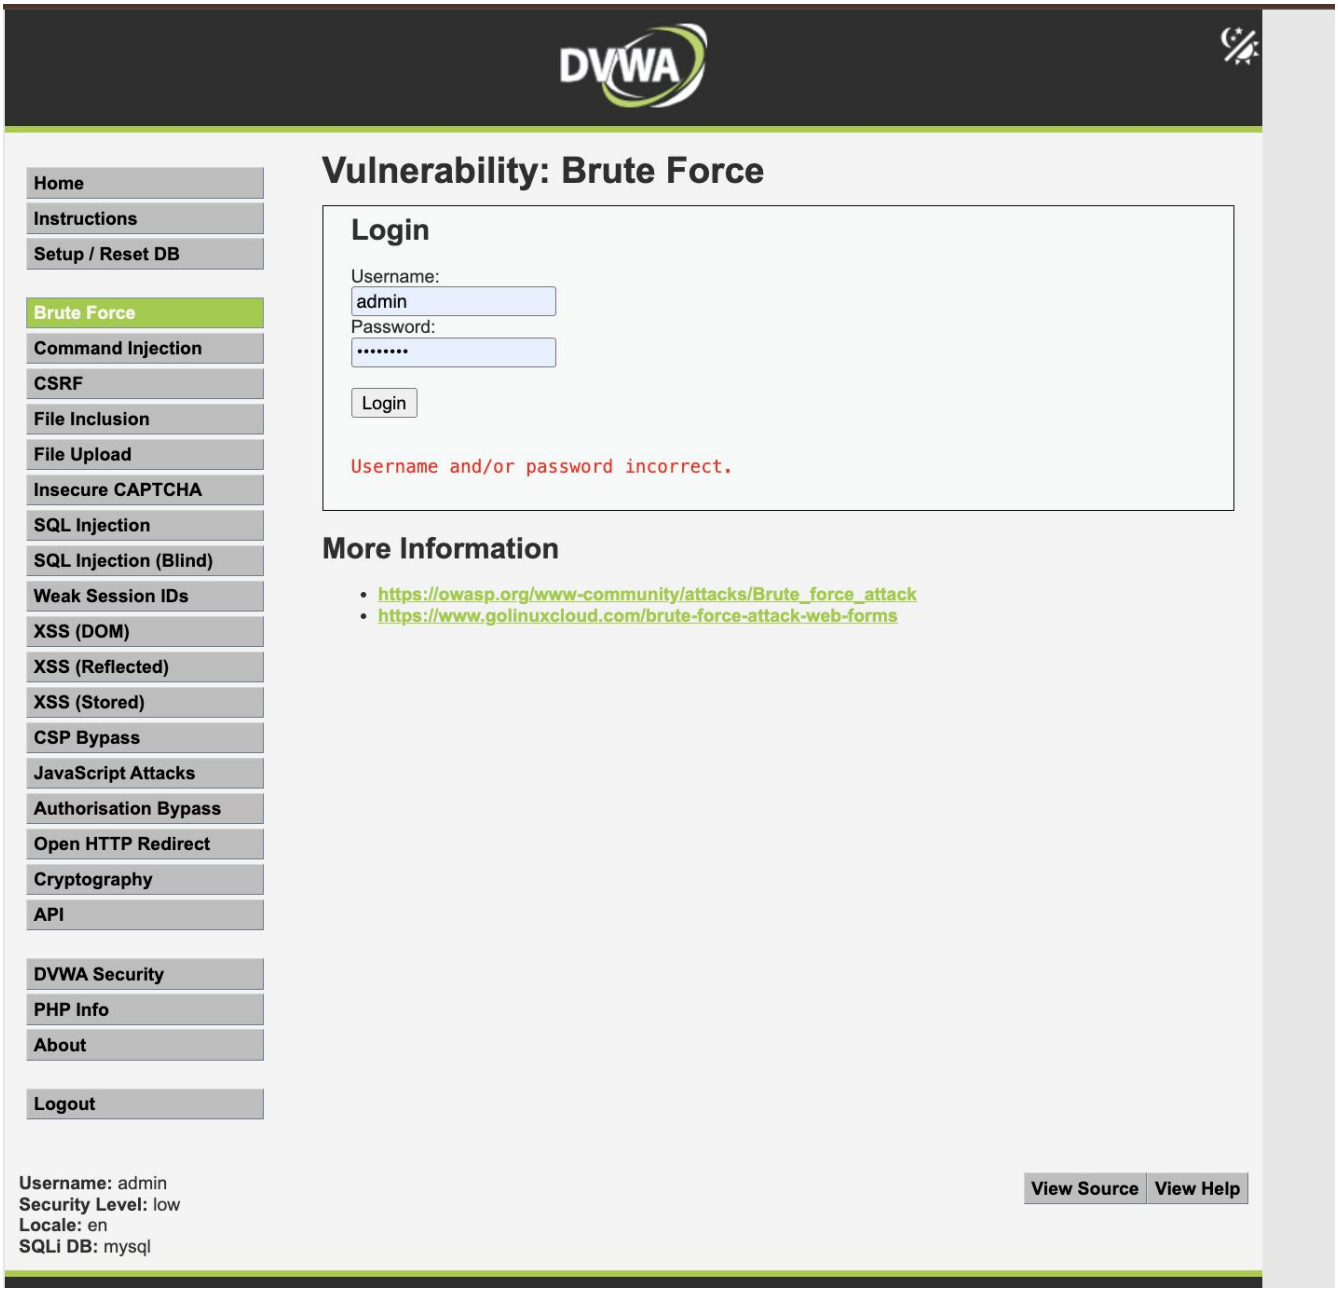

Evidence 01 of 26 — DVWA interface evidence related to the login/brute-force test.

Original file: Screenshot 2026-10-25 at 02.26.12.png

DVWA Brute-Force Test

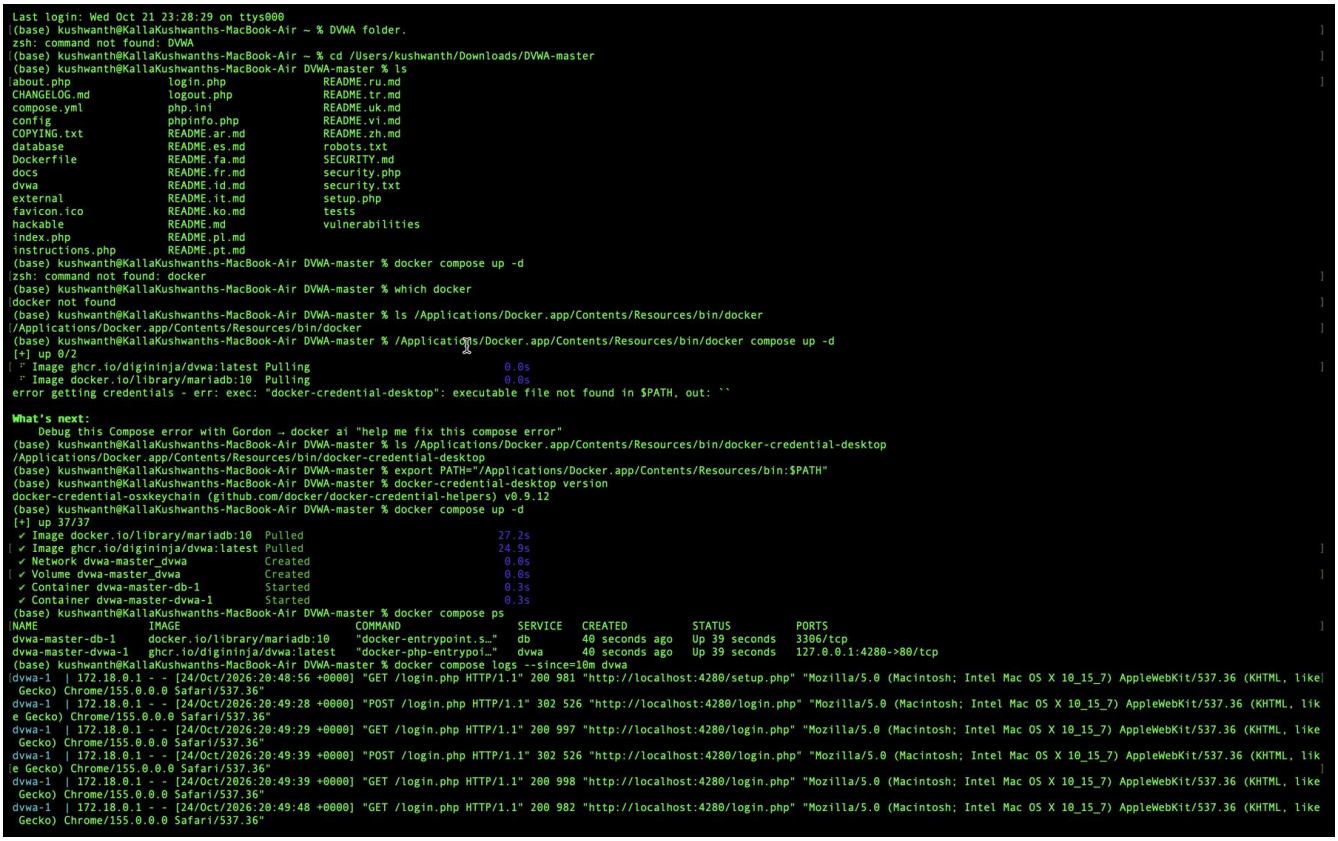

Evidence 02 of 26 — DVWA interface evidence related to the login/brute-force test.

Original file: Screenshot 2026-10-25 at 02.31.40.png

Terminal and Web-Log Evidence

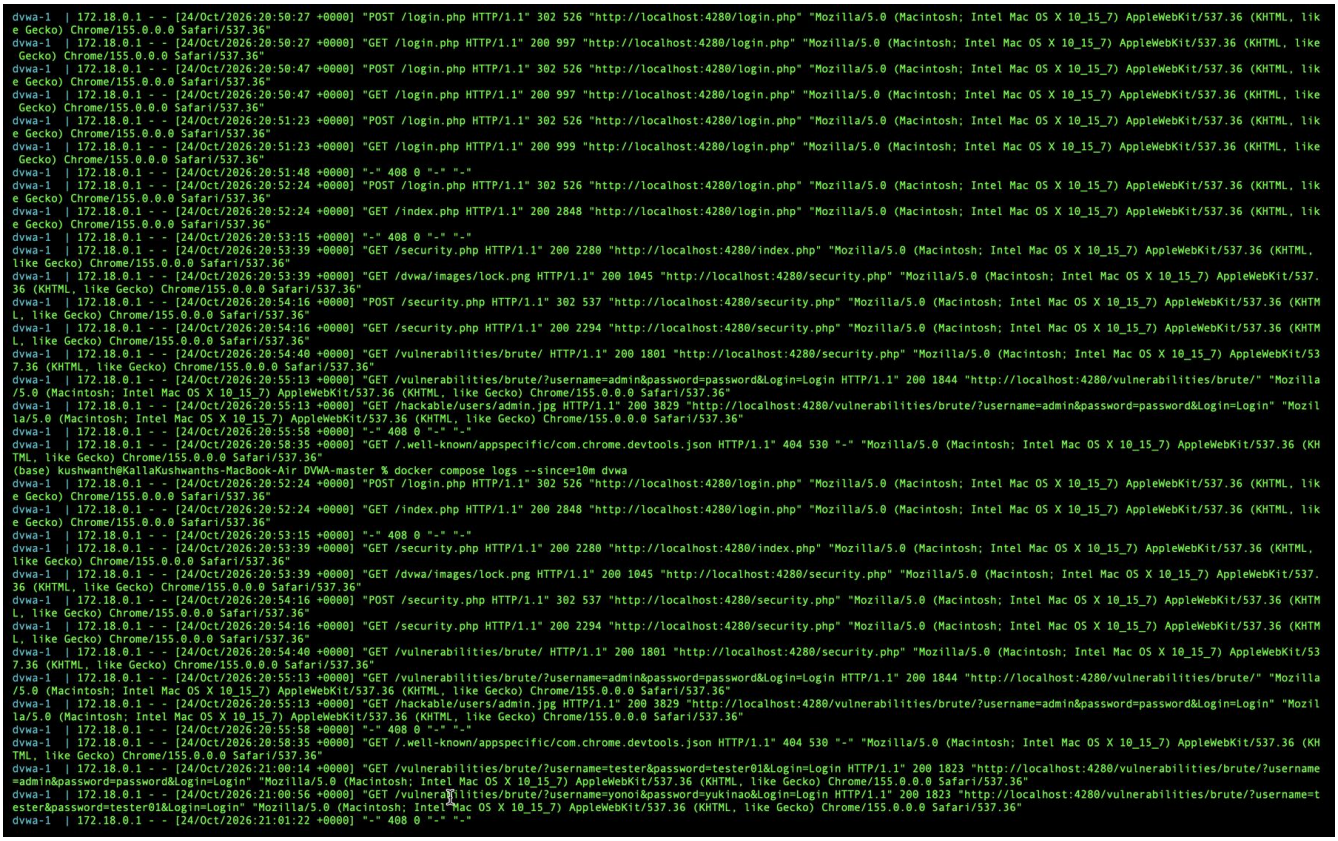

Evidence 03 of 26 — Terminal captures showing lab activity and supporting log output.

Original file: Screenshot 2026-10-25 at 02.38.57.png

Terminal and Web-Log Evidence

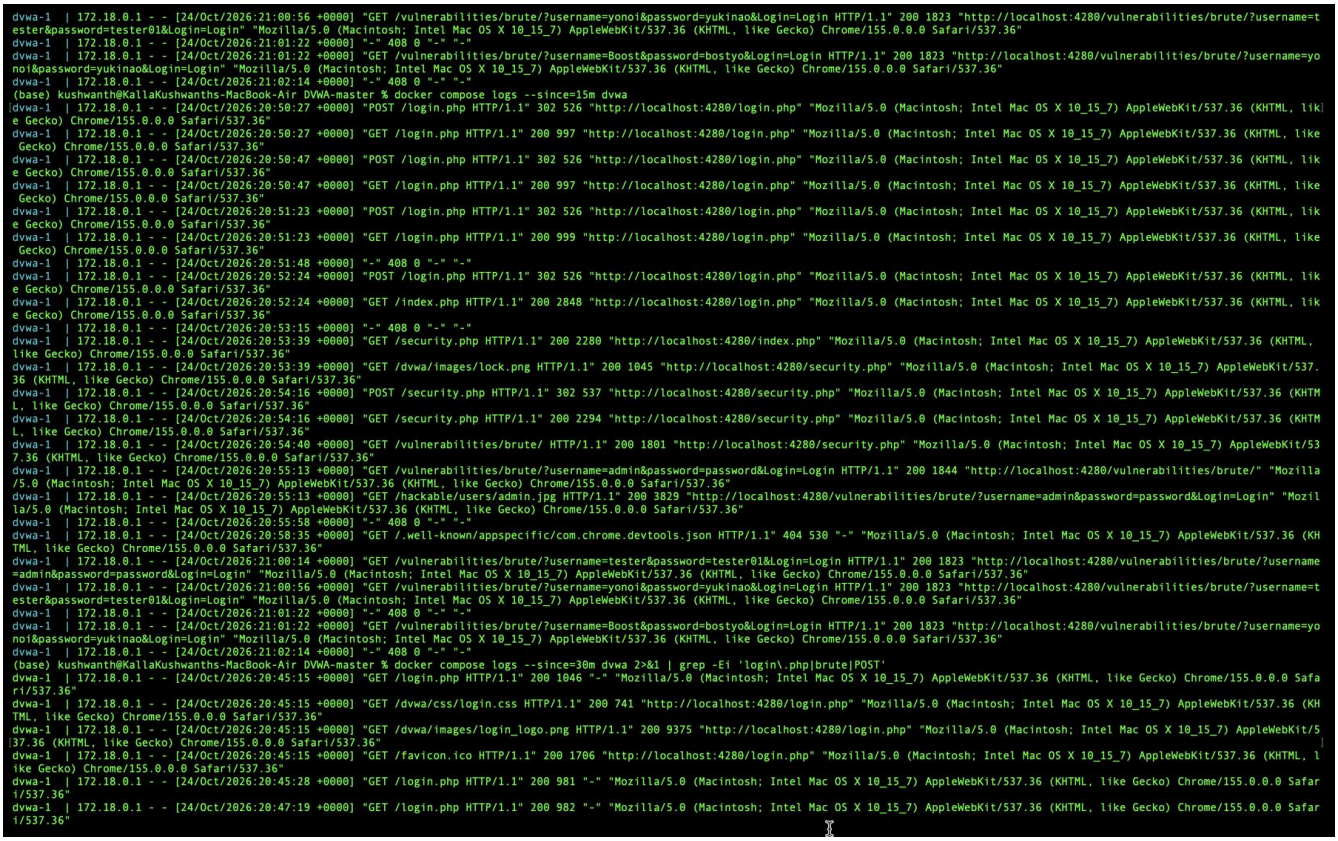

Evidence 04 of 26 — Terminal captures showing lab activity and supporting log output.

Original file: Screenshot 2026-10-25 at 02.39.26.png

Terminal and Web-Log Evidence

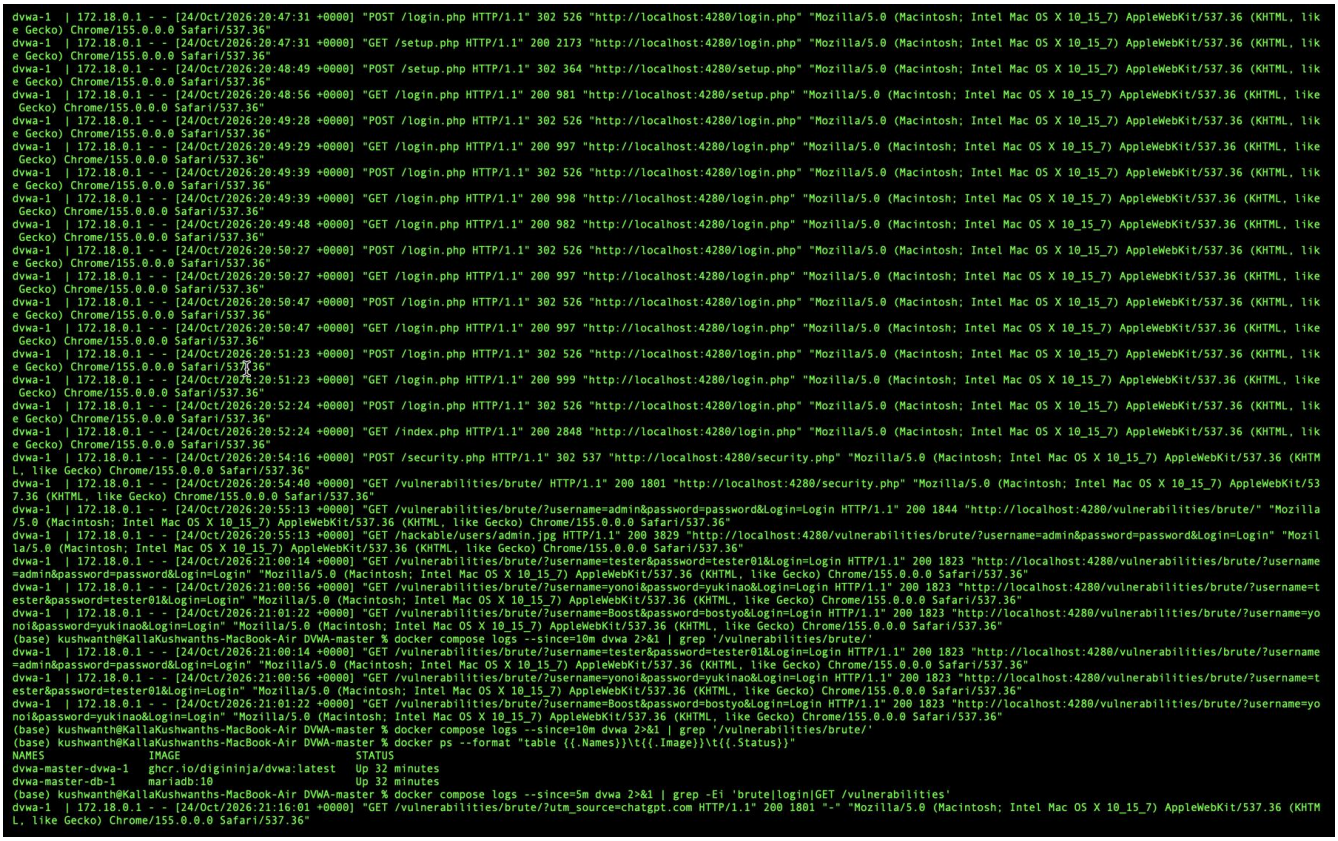

Evidence 05 of 26 — Terminal captures showing lab activity and supporting log output.

Original file: Screenshot 2026-10-25 at 02.39.49.png

Terminal and Web-Log Evidence

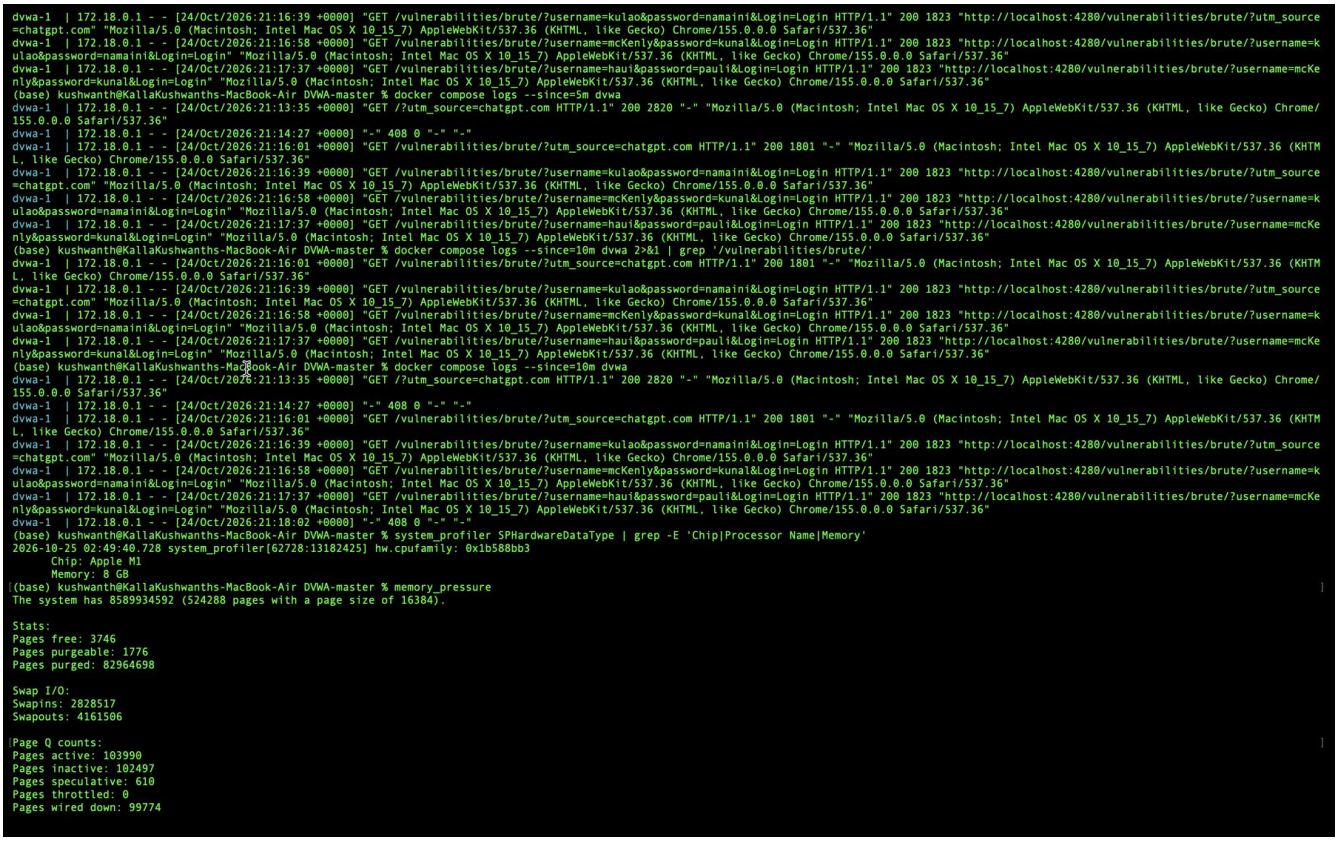

Evidence 06 of 26 — Terminal captures showing lab activity and supporting log output.

Original file: Screenshot 2026-10-25 at 03.05.12.png

Terminal and Web-Log Evidence

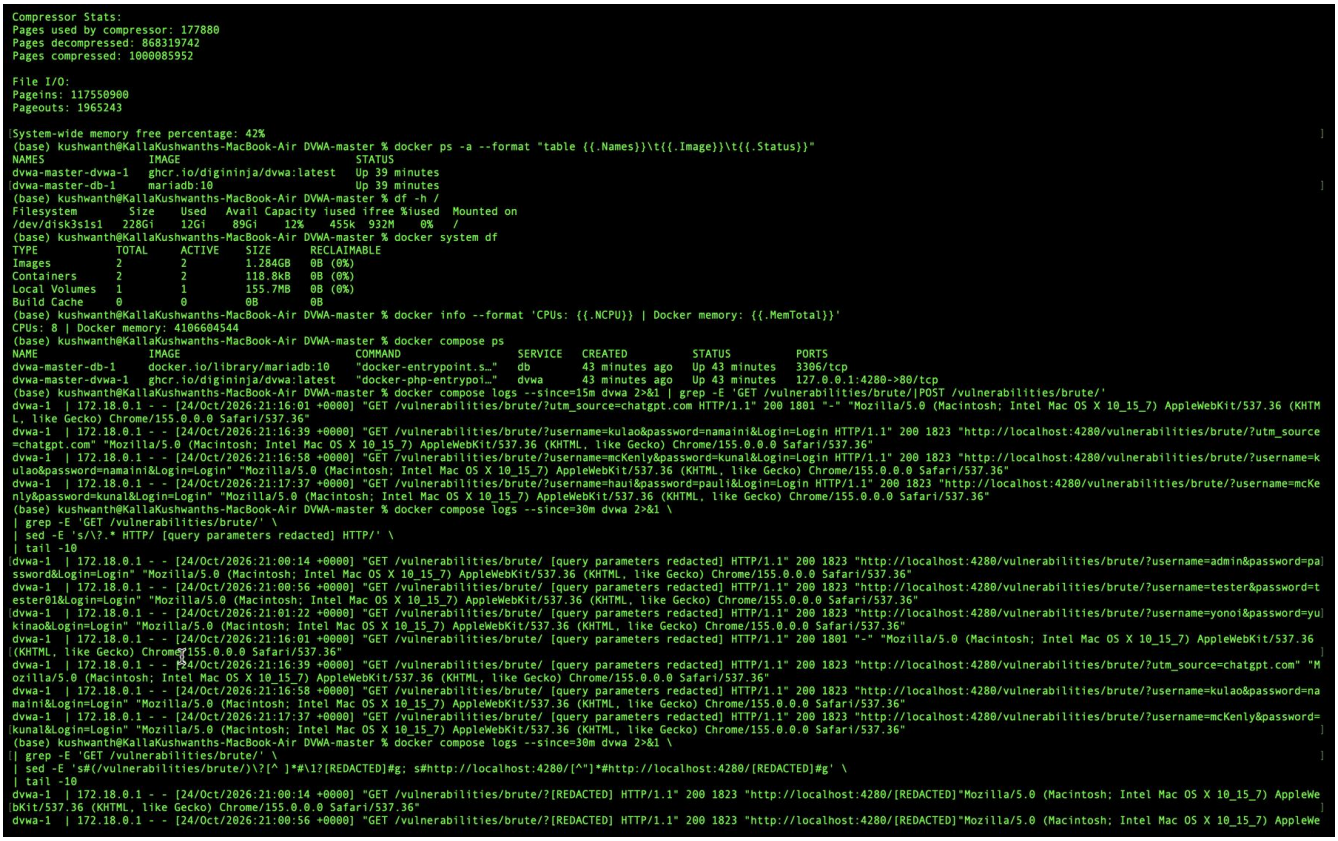

Evidence 07 of 26 — Terminal captures showing lab activity and supporting log output.

Original file: Screenshot 2026-10-25 at 03.05.25.png

Terminal and Web-Log Evidence

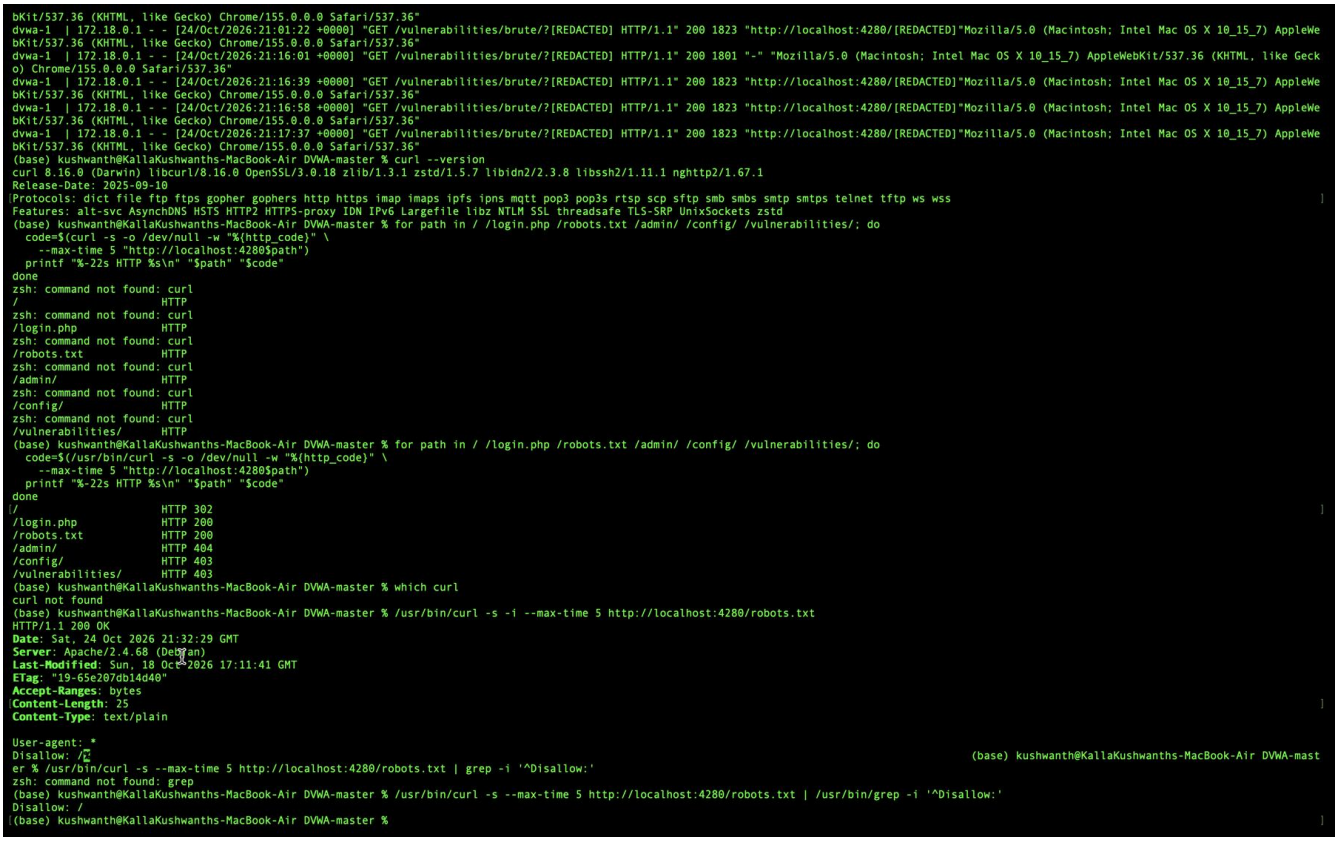

Evidence 08 of 26 — Terminal captures showing lab activity and supporting log output.

Original file: Screenshot 2026-10-25 at 03.05.44.png

Terminal and Web-Log Evidence

Evidence 09 of 26 — Terminal captures showing lab activity and supporting log output.

Original file: Screenshot 2026-10-25 at 03.05.52.png

Plaintext Input / HTTP Parameter Test

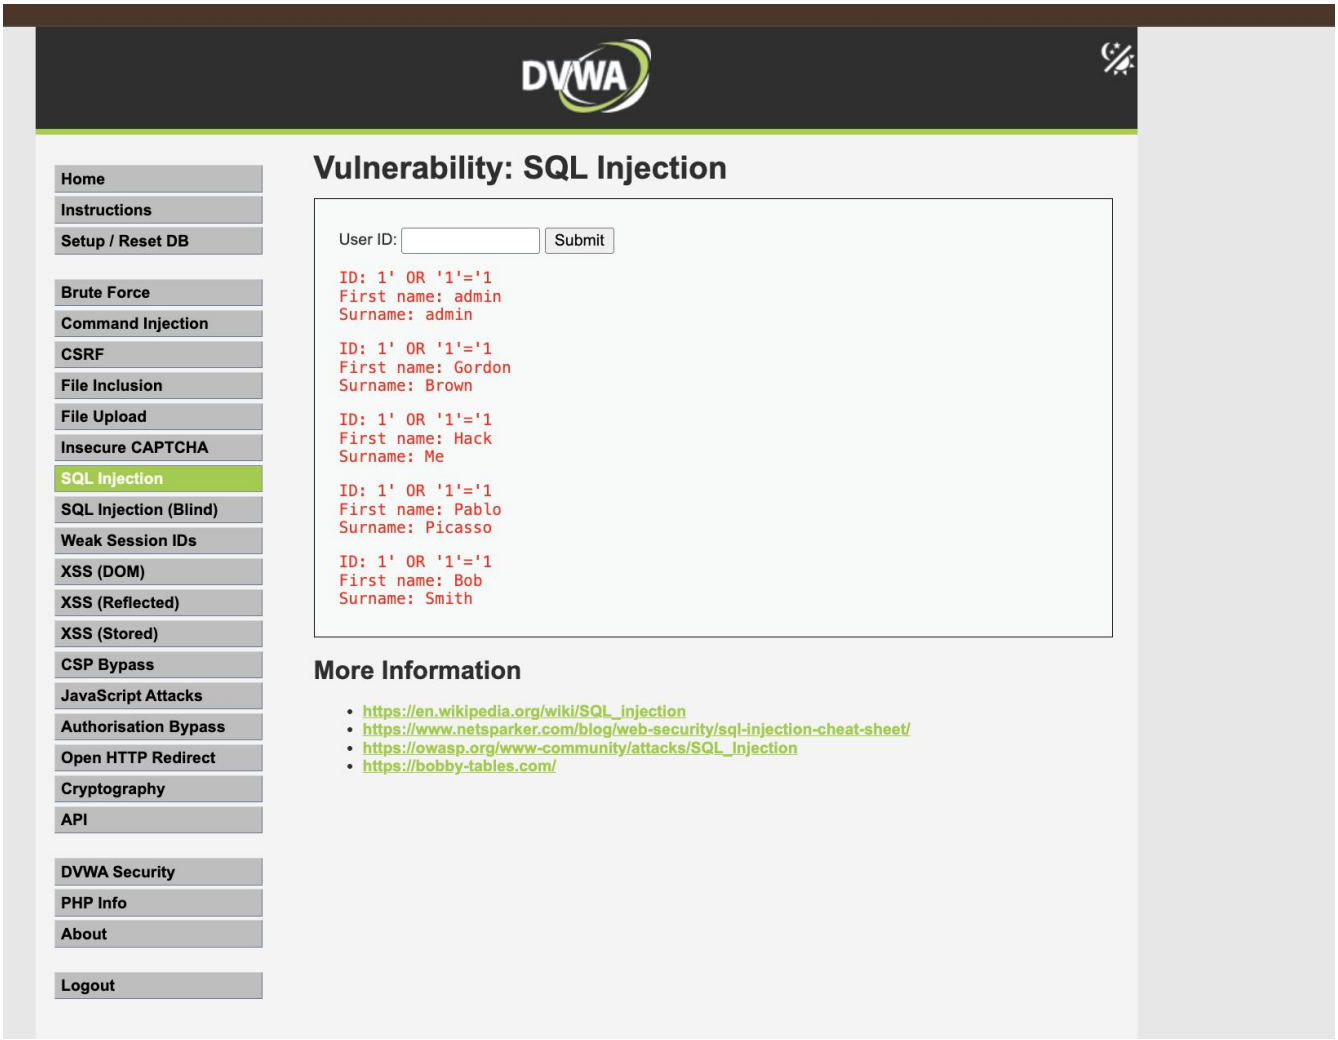

Evidence 10 of 26 — DVWA user-ID input test and its displayed response.

Original file: Screenshot 2026-10-25 at 03.16.28.png

SQL Injection Test

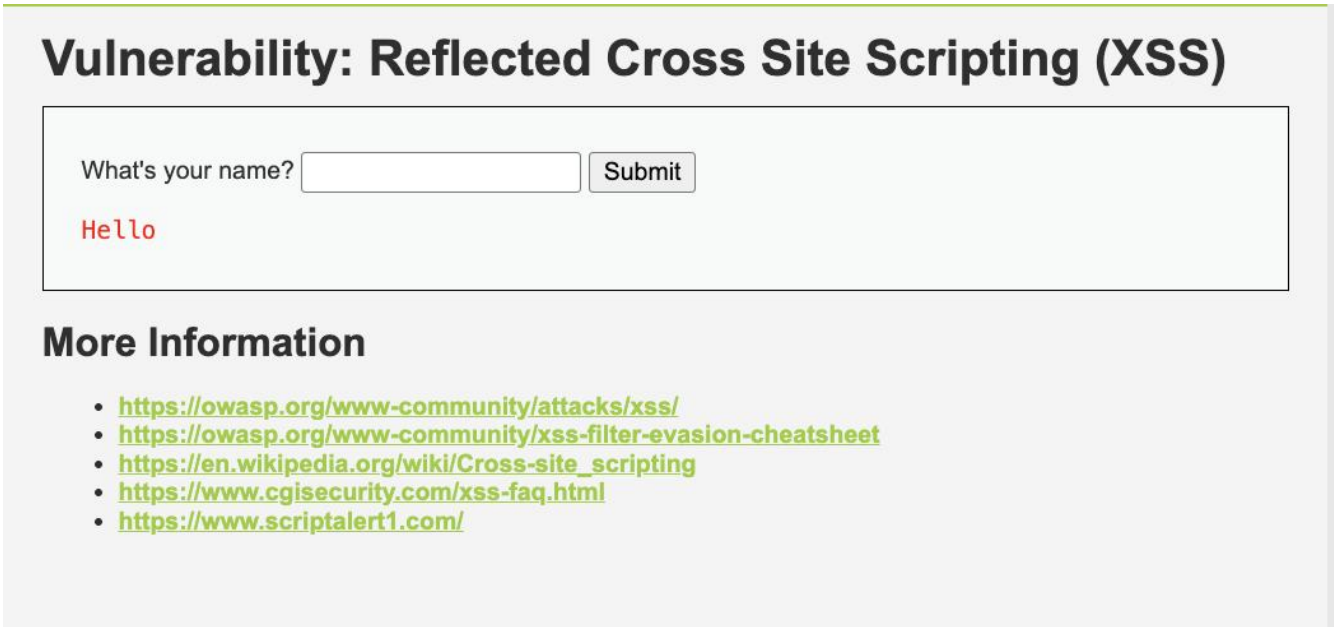

Evidence 11 of 26 — DVWA SQL-injection page showing test input/output.

Original file: Screenshot 2026-10-25 at 03.18.42.png

Reflected XSS Test

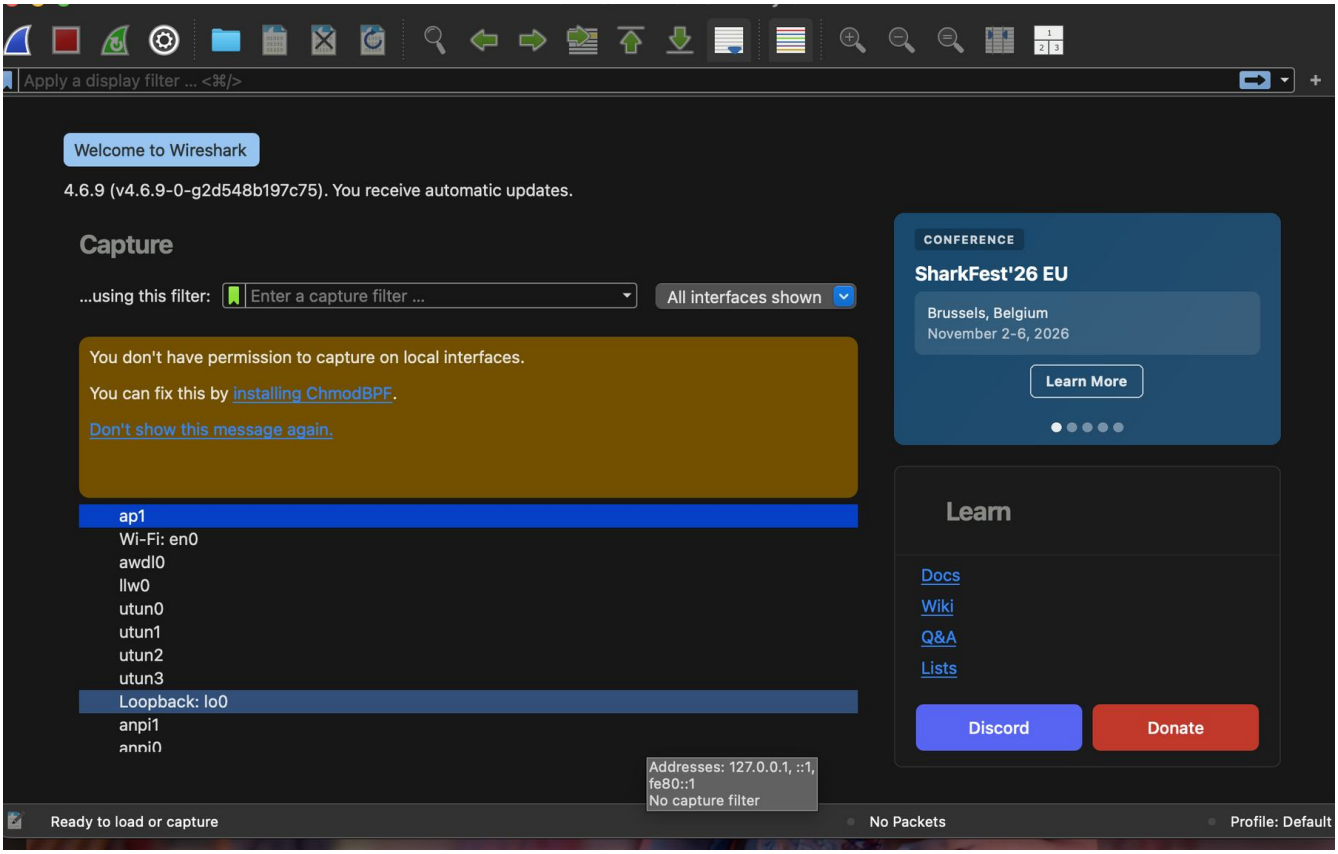

Evidence 12 of 26 — DVWA reflected-XSS page showing the submitted test string and response.

Original file: Screenshot 2026-10-25 at 03.21.44.png

Wireshark Network-Traffic Evidence

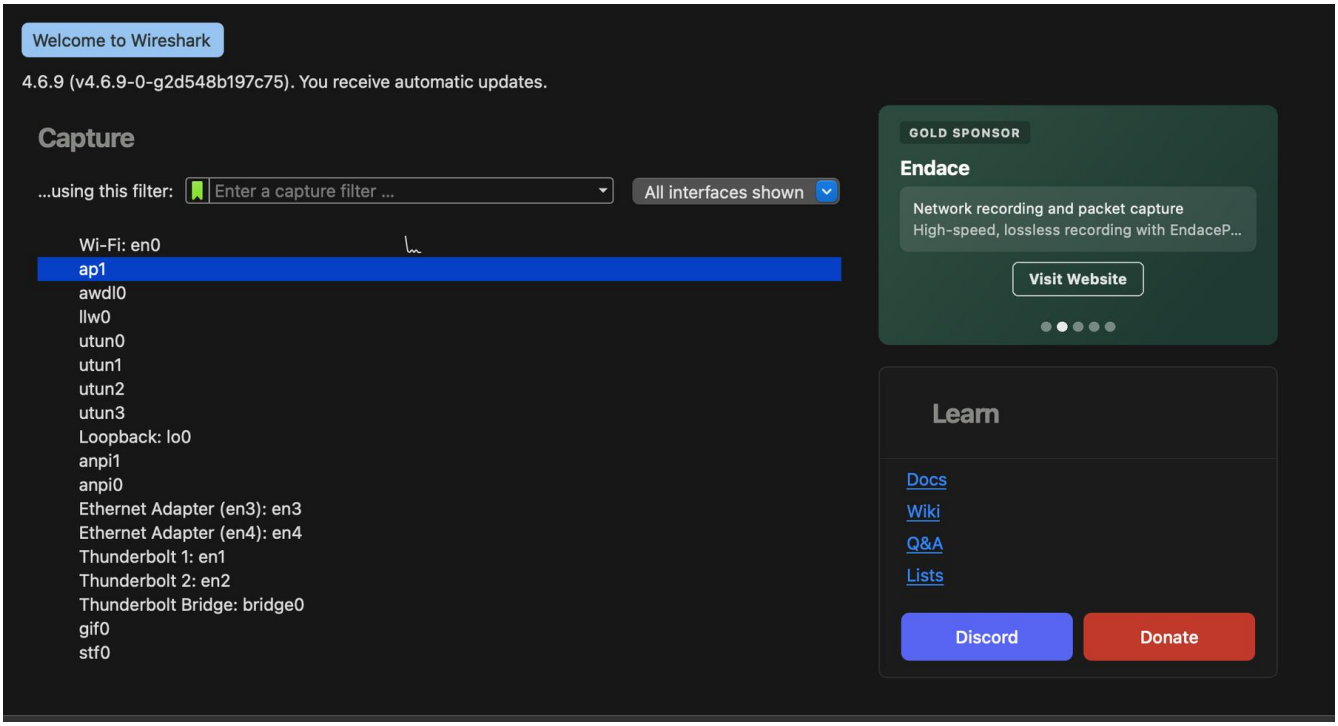

Evidence 13 of 26 — Wireshark interface and packet-capture screenshots supporting network-traffic review.

Original file: Screenshot 2026-10-25 at 03.33.35.png

Wireshark Network-Traffic Evidence

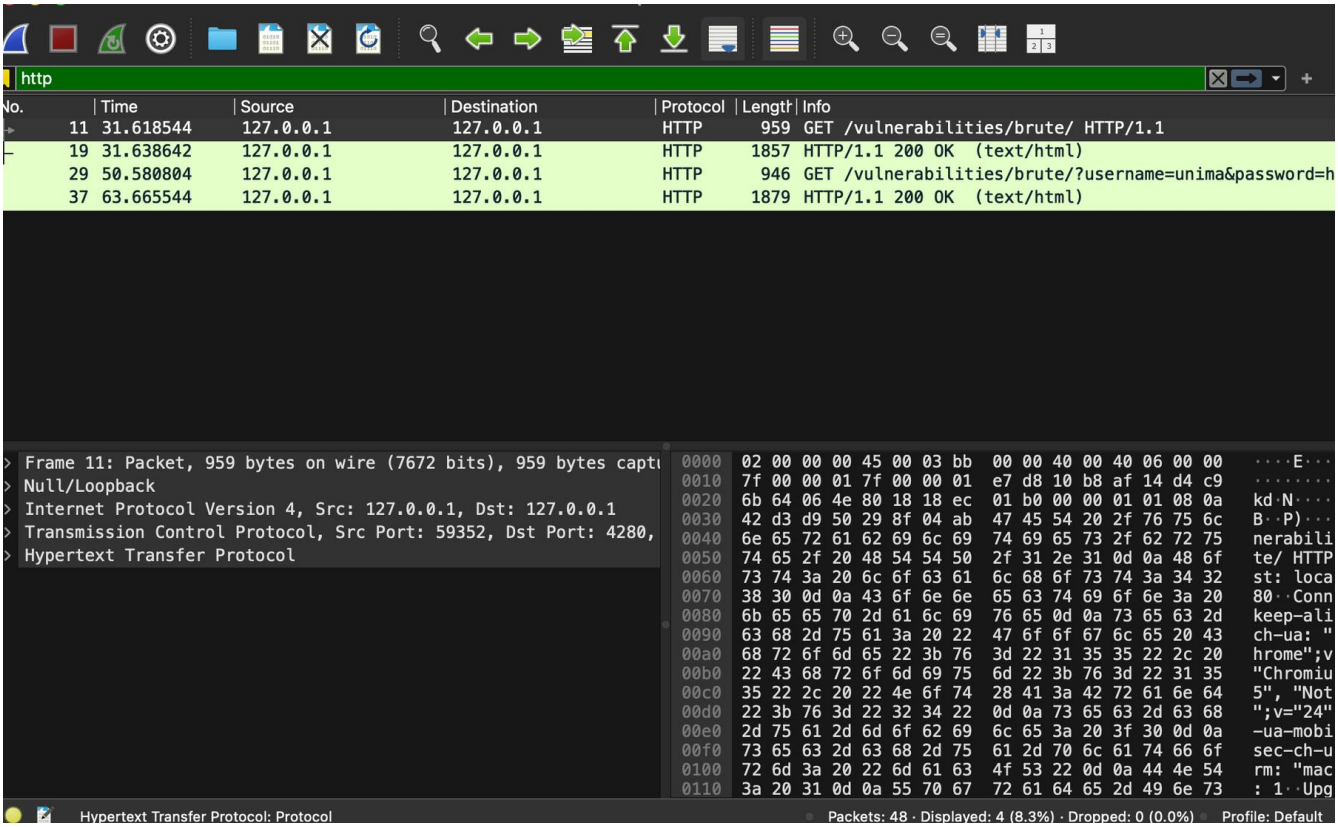

Evidence 14 of 26 — Wireshark interface and packet-capture screenshots supporting network-traffic review.

Original file: Screenshot 2026-10-25 at 03.35.31.png

Wireshark Network-Traffic Evidence

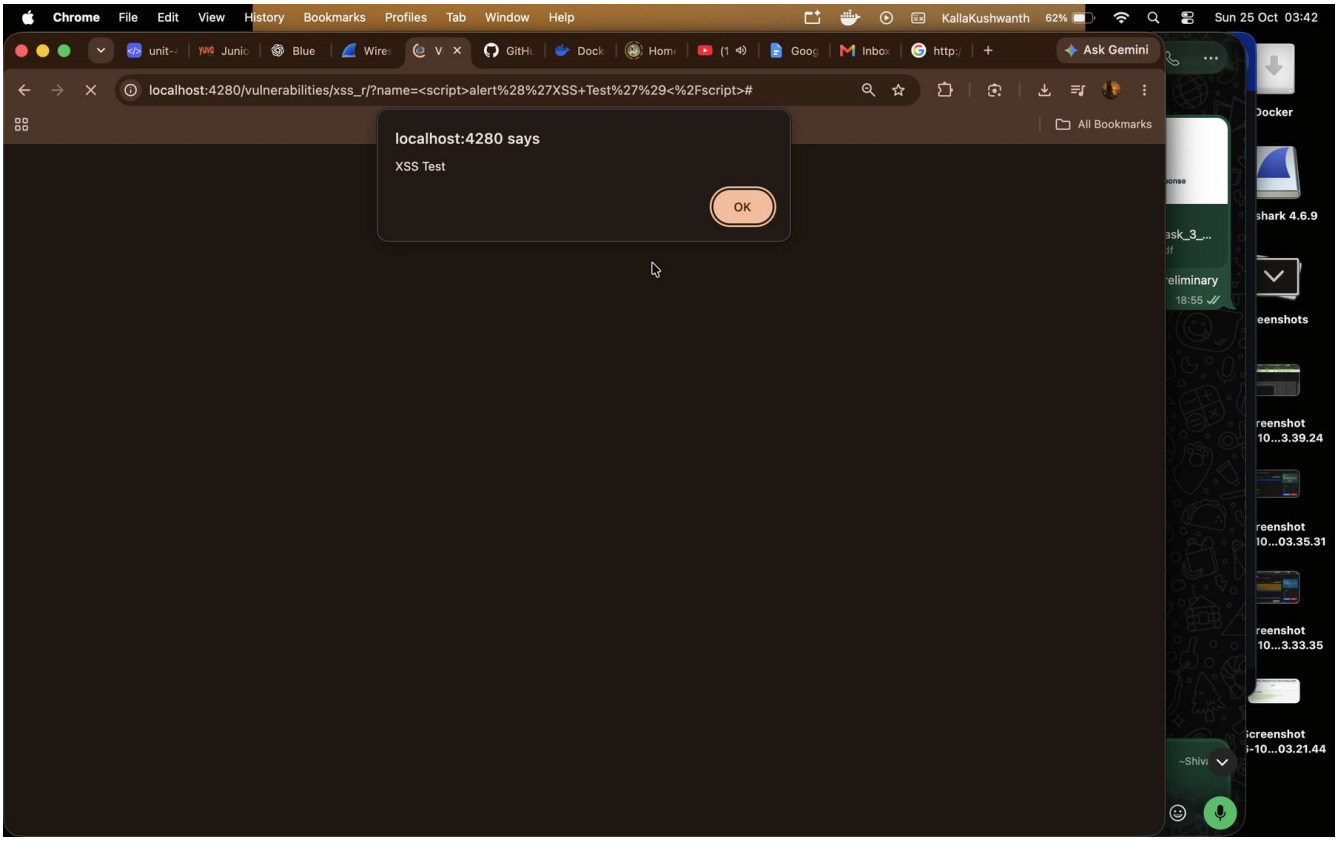

Evidence 15 of 26 — Wireshark interface and packet-capture screenshots supporting network-traffic review.

Original file: Screenshot 2026-10-25 at 03.39.24.png

Wireshark Network-Traffic Evidence

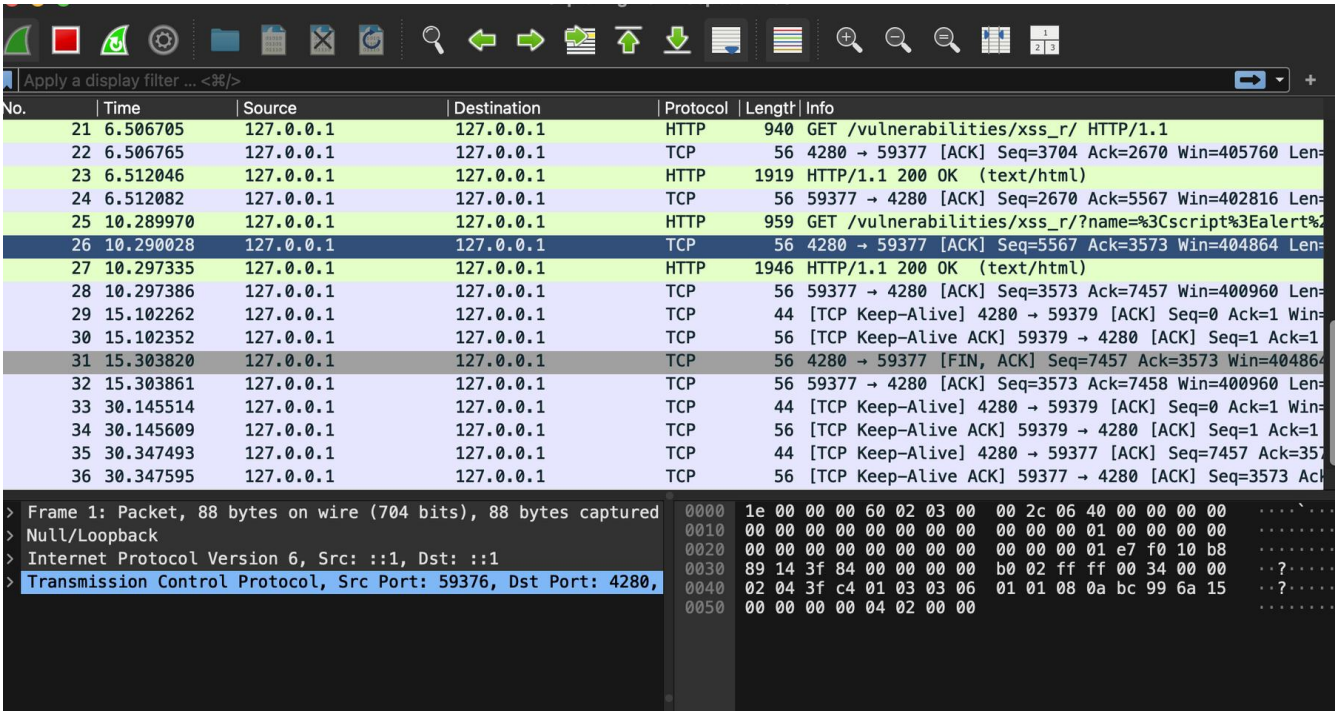

Evidence 16 of 26 — Wireshark interface and packet-capture screenshots supporting network-traffic review.

Original file: Screenshot 2026-10-25 at 03.42.26.png

Wireshark Network-Traffic Evidence

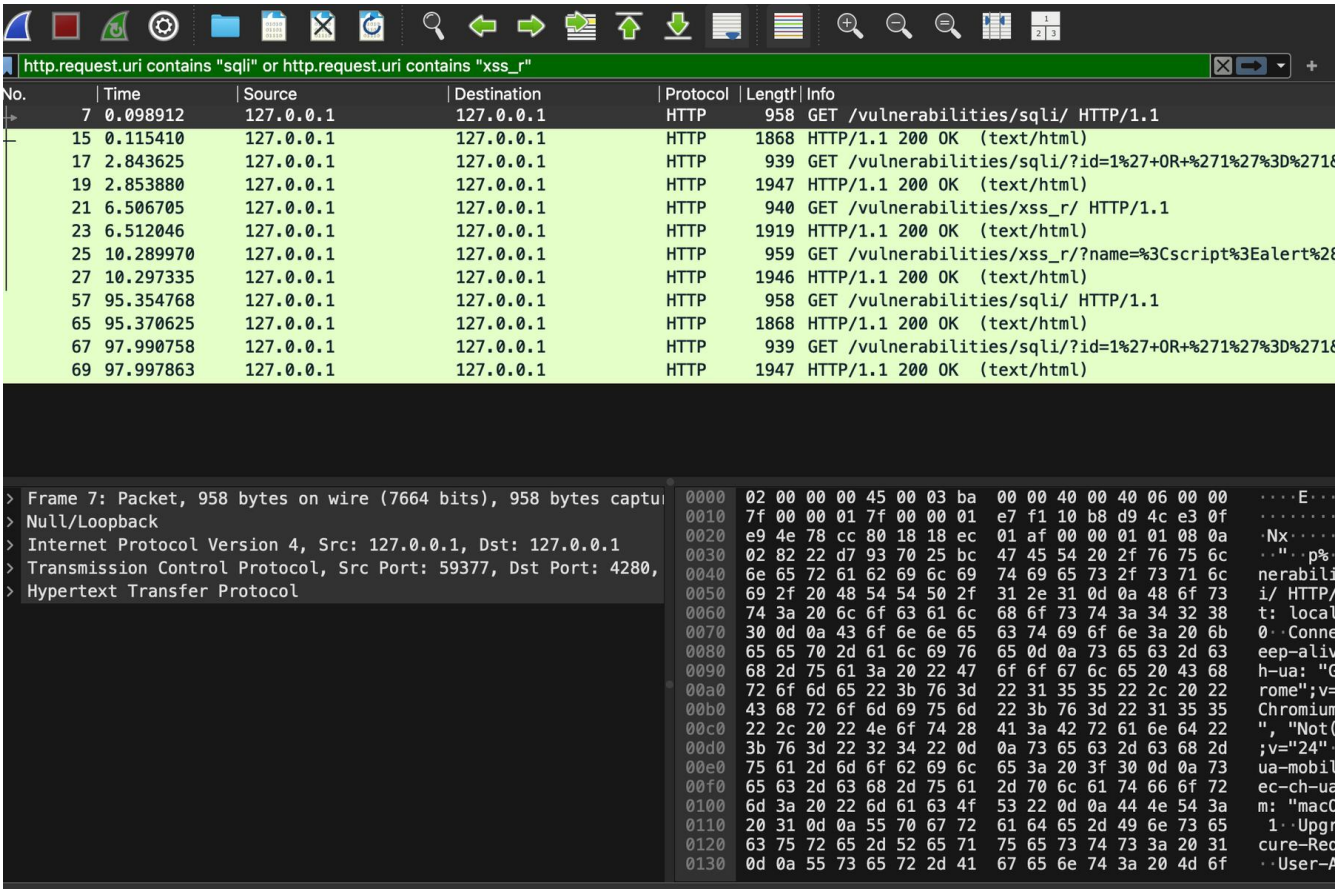

Evidence 17 of 26 — Wireshark interface and packet-capture screenshots supporting network-traffic review.

Original file: Screenshot 2026-10-25 at 03.57.55.png

Wireshark Network-Traffic Evidence

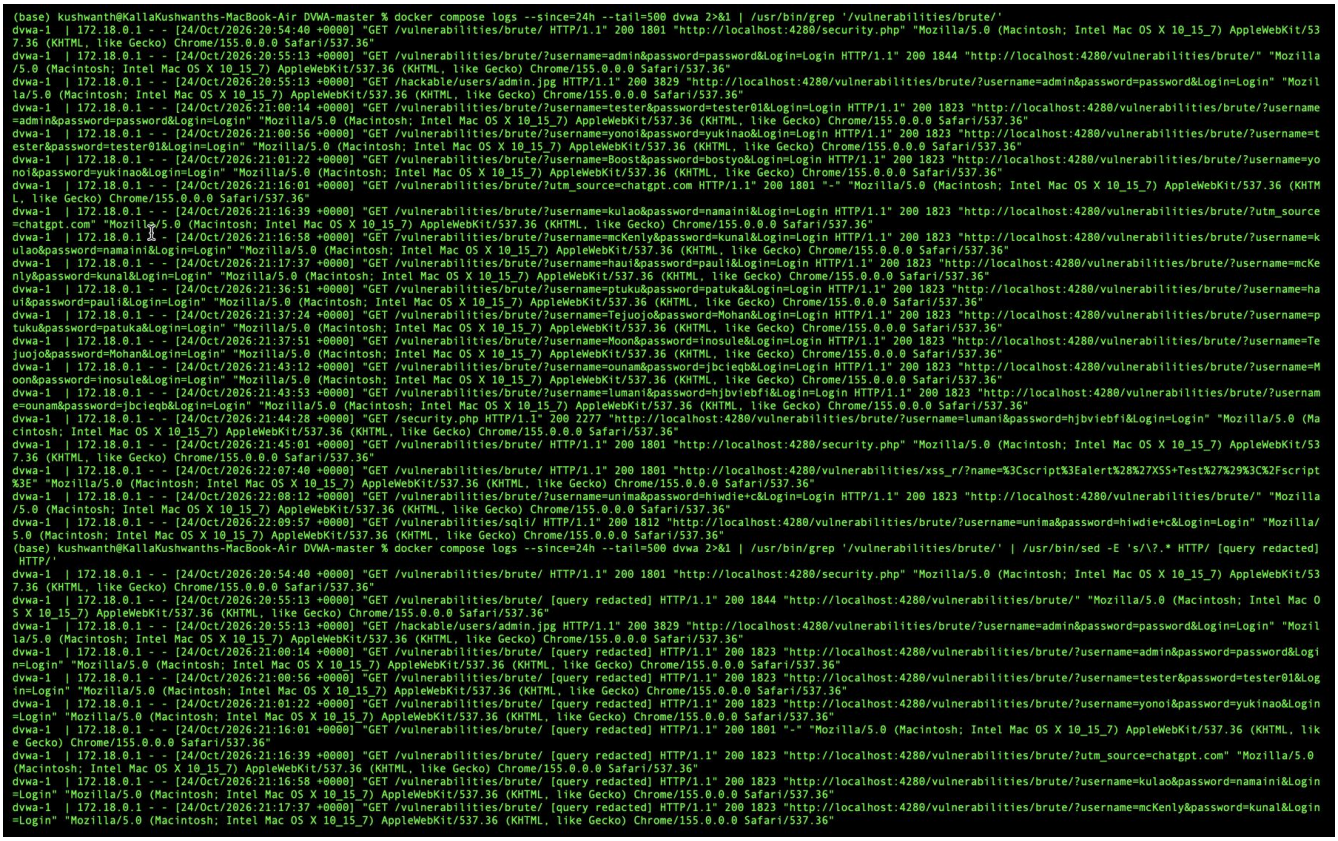

Evidence 18 of 26 — Wireshark interface and packet-capture screenshots supporting network-traffic review.

Original file: Screenshot 2026-10-25 at 03.59.25.png

Python Log-Detection Evidence

Evidence 19 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 04.17.45.png

Python Log-Detection Evidence

Evidence 20 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 12.42.34.png

Python Log-Detection Evidence

Evidence 21 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 12.47.05.png

Python Log-Detection Evidence

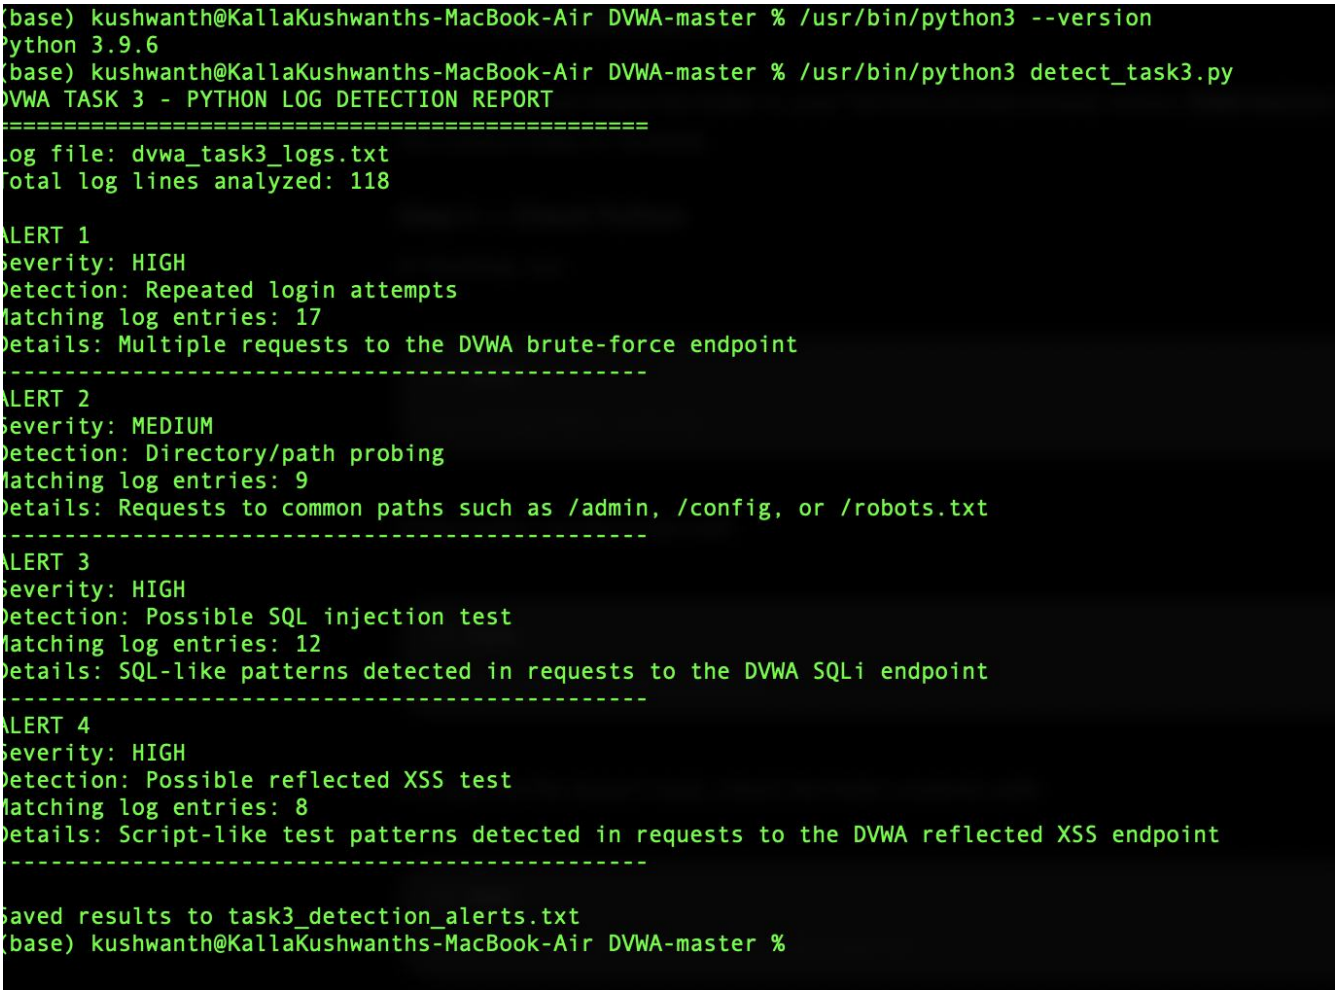

Evidence 22 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 13.27.24.png

Python Log-Detection Evidence

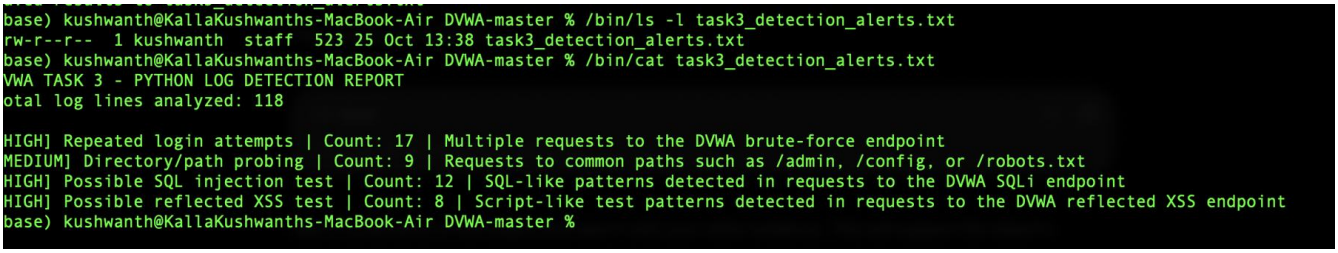

Evidence 23 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 13.38.17.png

Python Log-Detection Evidence

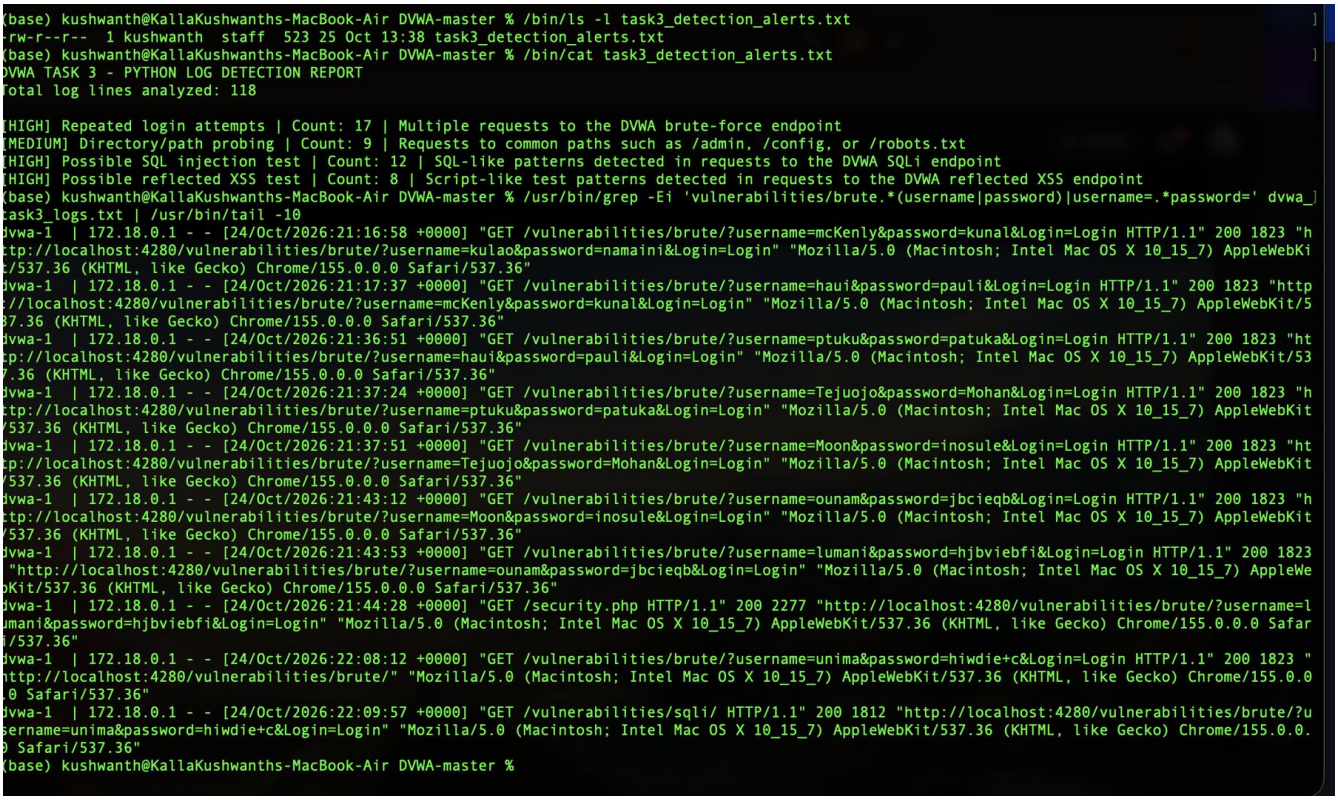

Evidence 24 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 13.39.01.png

Python Log-Detection Evidence

Evidence 25 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 13.40.08.png

Python Log-Detection Evidence

Evidence 26 of 26 — Terminal output related to the Python-based log-analysis workflow.

Original file: Screenshot 2026-10-25 at 13.47.57.png
